

School City of Hammond

41 Williams Street • Hammond, IN 46320
(219) 933-2400 • (219) 933-2495 FAX

Dr. Walter J. Watkins, Superintendent

The School City of Hammond announces that it will be holding a Public Work Session on Monday, September 10, 2018. The purpose of the Work Session is to review the water testing obtained by its consultant. The meeting will be held at 6:00 p.m. at the School City of Hammond Administration Building at 41 Williams Street.

This is a Work Session for the School Board to meet with its consultant concerning the results of the water testing and to receive and review the full results of water testing. ***Contrary to other reports, the School Board has NOT yet received the full report concerning the lead testing even though it had been hoped the report would have been finalized by the end of this week. The consultant has provided assurances that the full results will be completed by September 10, 2018.*** This meeting will be held in public but is not a board meeting for purposes of making any decisions; there will be no public input period. In light of the structure of a Public Work Session and to accommodate those who wish to have questions asked by the School Board to the consultant, questions can be submitted to schadmin@hammond.k12.in.us by 4:00 p.m. on Monday, September 10, 2018.

After the Monday, September 10th Public Work Session, more information will be available on the School City of Hammond's website including a full summary that will be emailed to parents and staff. For those who submit questions after 4:00 p.m. or would like to submit questions after the Public Work Session on Monday, questions will be cumulated for another Frequently Asked Questions document that will be included with the summary from the Monday, September 10th Public Work Session and published on the School City of Hammond's website.
