

Apollo 11 Rocket

Apollo 11 Patch

Mission Objective: Perform a manned lunar landing and return.

Famous Quote: “That’s one small step for man, one giant leap for mankind.”

Bio Poem

Neil

Who is a pilot, engineer,
and professor.

Sibling of June and Dean
Son of Stephen and Viola

Lover of space travel,
rocketry, and the moon.

Who fears disappointing his
crew members, his country,
and his family.

Who needs to fly, to teach,
and to learn more about the
moon.

Who feels brave, intelligent,
and lucky.

Who would like to see
another part of the moon,
travel back into space,
students learning from him.
Resident of Wapakoneta,
Ohio

Armstrong

Apollo 11 Crew Members

Lft: Neil Armstrong
Ctr: Michael Collins
Rt: Edwin (Buzz) Aldrin

Education:

B.S. degree in Aeronautical
engineering from Purdue
University, Lafayette,
Indiana

M.S. degree in Aerospace
engineering from University
of Southern California,
California.

Career:

- Navy Pilot 1949-1952
- First Space flight – Gemini 8
- Performed first 2-transport docking in space
- First man on the moon – Apollo 11 (July 20, 1969)
- Lunar Landing Site: Mare Tranquillitatis
- Lunar Module: Eagle
- Professor of Aerospace engineering at the University of Cincinnati 1971-1979
- Served on National Commission that investigated Challenger explosion in 1986.
